Billing Overview

Last updated：2023-12-21 21:08:10

Billing Mode

TencentDB for Tendis supports pay-as-you-go billing mode.

Pay-as-you-go

For pay-as-you-go, the billable usage time is accurate down to the second.

TencentDB for Tendis supports tiered pricing. The longer you use it, the more you save.

The pay-as-you-go tiered pricing model is based on usage duration.

Tier 1: 0 days < usage duration ≤ 4 days

Tier 2: 4 days < usage duration ≤ 15 days

Tier 3: Usage duration > 15 days

Note:

Prices revert to tier 1 for instances that are scaled or isolated.

Payment Overdue Policy

Last updated：2023-12-21 21:08:46

Pay-as-You-Go TencentDB Instance

Note:

After you stop using pay-as-you-go resources, **terminate them as soon as possible** to avoid further fee incursion. Since your actual resource consumption is constantly changing, some slight discrepancies may exist for your stated balance.

Alerts

Pay-as-you-go resources are billed on the hour. When your account balance becomes negative, the system will send an alert to your Tencent Cloud account creator, global resource collaborators, and financial collaborators via email, SMS, and other methods as configured in message subscription in the Message Center.

Overdue Payment Processing

1. **When your account is overdue:**

TencentDB instances are still available for 24 hours, meanwhile the billing continues.

After being overdue for 24 hours, **your TencentDB instance will be automatically shut down**, and the billing will stop.

2. **After automatic shutdown:**

If the overdue payment is paid within 3 days, you can start up the instance and the billing continues.

If you failed the pay the overdue payment in 3 days, the TencentDB instance will be repossessed by Tencent Cloud. All data will be erased and cannot be recovered. Tencent Cloud account creator, global resource collaborators, and financial collaborators will be notified via email, SMS, etc.
