TCR Enterprise supports the pay-as-you-go billing mode. You can go to the TCR purchase page to purchase a TCR Enterprise instance. Tencent Cloud COS will be used at the same time with the instance and costs will be incurred based on your actual usage.

Billing Mode for TCR Enterprise

TCR provides the pay-as-you-go billing mode:

Instance Billing Mode	Payment Method	Billing Unit
Pay-as-you-go Instances	Deposit upon purchase, billed hourly	USD/hour

Billable Items for TCR Enterprise

Item	Description	Price
Instance purchase	TCR Enterprise instances support the pay-as-you-go billing mode. The managed service charges differ according to the selected region and specifications.	For more information, see Enterprise Edition Pricing.
Storage fees	The cloud-native artifacts of the TCR Enterprise managed instance, such as container images and Helm charts, are stored in your COS bucket. Storage and access fees will apply based on actual usage with the selected COS billing mode. To view the fees, go to the Billing Center.	For more information, see COS Pricing.
Traffic	Using the public network to upload and download the cloud-native artifacts such as container images and Helm charts will incur public network traffic fees in COS. Note: Using the instance synchronization feature for cross-region synchronization of container images and Helm charts does not incur COS public network traffic fees.	For more information, see COS Pricing.
