Overview

Tencent VooV Meeting (TVM) is an efficient and reliable video conferencing service powered by Tencent that is built for collaboration. With this product, users can schedule and join meetings, anytime, anywhere, thus eliminating the need to travel and allowing you to be more efficient and productive with your time. TVM supports PC and mobile clients and offers a free personal edition as well as fee-based professional and enterprise editions. TVM has been launched on app stores. You can purchase the edition that suits your conferencing needs.

Enterprise conferences

Users can join meetings via PC and mobile devices easily. Flexible scaling options enables enterprises to host high quality online meetings efficiently .

Online education

HD screen sharing enables educators to conduct highly interactive live online teaching sessions.

Remote interviews

AI speech enhancement enables smooth communications for online interviews. A beauty filter is provided to enhance appearances.

Strengths

Flexible ways to join meetings

TVM enables attendees to join meetings quickly on mobile phones, PCs, and tablets for a seamless conferencing experience across platforms. It can be integrated with native calendar applications so you can view your scheduled meetings and receive meeting reminders.

Smooth HD conferencing experience

TVM features high definition, intelligent video noise reduction, and a beauty filter to enhance your appearance. It comes with AI-based speech enhancement and high audio fidelity processing algorithms to minimize ambient noise.

Efficient sharing and collaboration

TVM enables real-time screen sharing on PCs and mobile devices, improving the clarity of presentations and communications. A watermark feature ensures data security. It features instant text messaging to facilitate discussions without disrupting meetings.
