### Billing and Payment

#### Billing

Tencent Cloud FaceID is billed by the number of calls.

If the total number of monthly API calls reaches a tier, all calls will be billed at the unit price in the tier. The higher the tier, the lower the unit price. On the 1st to 3rd day of each month, the system will generate the bill for the previous month and automatically deduct fees from your account.

### Fee Calculation Example

If you call the liveness face comparison API 20,000 times in the month, the billing will be:

$$20000 * 0.3 = 6000 \text{ USD}$$
