1. INTRODUCTION

This Module applies if you use the T-Sec Data Security Center (“**Feature**”). This Module is incorporated into the privacy policy located at [Privacy Policy](#). Terms used but not defined in this Module shall have the meaning given to them in the Privacy Policy. In the event of any conflict between the Privacy Policy and this Module, this Module shall apply to the extent of the inconsistency.

2. CONTROLLERSHIP

The controller of the personal information described in this Module is as specified in the Privacy Policy.

3. AVAILABILITY

This Feature is available to users globally but primarily intended for users located in the same country/region as the selected service region for optimal performance.

4. HOW WE USE PERSONAL INFORMATION

We will use the information in the following ways and in accordance with the following legal basis:

Personal Information	Use	Legal Basis
Customer's UIN, customer-authorized instance information, database address (intranet IP), customer database account number, customer database password, customer sample data (which may include the customer's clients' details in accordance with the service customer provides).	We use this information to provide you with the core functions of the Feature.	We process this information as it is necessary for us to perform our contract with you to provide the Feature.

Personal Information	Use	Legal Basis
Customer configuration data, including customer's APPID, asset identification authority switch, task scan time, task scan frequency, number of task samples, number of task sample data saved, total number of customer assets and number of authorized assets.	We use this information to provide you with the core functions of the Feature.	We process this information as it is necessary for us to perform our contract with you to provide the Feature.

5. HOW WE SHARE AND STORE PERSONAL INFORMATION

As specified in the Privacy Policy.

6. DATA RETENTION

We will retain personal information in accordance with the following:

Personal Information	Retention Policy
Customer's UIN, customer-authorized instance information, database address (intranet IP), customer database account number, customer database password, customer sample data (which may include the customer's clients' details in accordance with the service customer provides).	We retain such data for as long as you use the Feature. When your use of the Feature is terminated, we will delete this data after 7 days. You will be able to directly delete the following data by cancelling your authorization to keep the data in the in the product console: database address (intranet IP), customer database account number, customer database password, customer sample data (which may include the customer's clients' details in accordance with the service customer provides).
Customer configuration data, including customer's APPID, asset identification authority switch, task scan time, task scan frequency, number of task samples, number of task sample data saved, total number of customer assets and number of authorized assets.	We retain such data for as long as you use the Feature. When your use of the Feature is terminated, we will delete this data after 7 days. If you do not need the product to save your sample data, you can set the scan task settings to not save the sample data.

Data Processing And Security Agreement

Last updated : 2022-03-31 16:11:42

1. BACKGROUND

This Module applies if you use T-Sec Data Security Center (“**Feature**”). This Module is incorporated into the Data Privacy and Security Agreement located at [DPSA](#). Terms used but not defined in this Module shall have the meaning given to them in the DPSA. In the event of any conflict between the DPSA and this Module, this Module shall apply to the extent of the inconsistency.

2. PROCESSING

We will process the following data in connection with the Feature:

Personal Information	Use
Configuration Data: customer's APPID, UIN, asset identification authority switch, task scan time, task scan frequency, number of task samples, number of task sample data saved.	We only process this data for the purposes of providing the Feature to you in accordance to your specific configuration.

Personal Information	Use
<p>Log data:</p> <p>1. Customer operation log: Back-end logic operation time, unique identification of interface call, back-end code positioning, operation content (interaction with product business database; key business node mark: interface time-consuming statistics; billing purchase, specification, duration and renewal information).</p> <p>2. Regular scheduling log: Background logic operation time, background code positioning, operation content (interaction with product business DB; business key node mark: system initialization start and end time, task start and end time, scan task corresponding to the total number of corresponding tables in the scan task DB), SQL information, SQL parameters, internal key node prompt information (user task start time, task completion time, total number of corresponding tables), customer APPID, UIN</p>	<p>We use this data for the purposes of providing the Feature to you and facilitate the services, as well as enable as to undertake any troubleshooting.</p>
<p>Usage data: The total number of data assets purchased by a customer and the number of authorized assets.</p>	<p>We process this data to allow us to monitor the data assets that have been used.</p>

3. SERVICE REGION

As specified in the DPSA.

4. SUB-PROCESSORS

As specified in the DPSA.

5. DATA RETENTION

We will store personal data processed in connection with the Feature as follows:

Personal Information	Retention Policy
Configuration Data	We retain such data for as long as you use the Feature. When your use of the Feature is terminated, we will delete this data after 7 days.

Personal Information	Retention Policy
Log Data	Log data will be automatically deleted after 60 days of first being recorded.
Usage Data	We retain such data for as long as you use the Feature. When your use of the Feature is terminated, we will delete this data after 7 days.

You can request deletion of such personal data in accordance with the DPSA.

6. SPECIAL CONDITIONS

You must ensure that this Feature is only used by end users who are of at least the minimum age at which an individual can consent to the processing of their personal data. This may be different depending on the jurisdiction in which an end user is located.
