This document describes how to quickly use CAT features.

Step 1. Create a task

1. Log in to the CAT console.
2. On the left sidebar, click **Tasks**.
3. Click **Create task** at the top of the **Tasks** page.
4. On the **Create task** page, select the test type and location, enter the information such as test address and name, and click **Create**.

Note:

For more information on task configuration, see Creating Tests.

Step 2. Analyze the test performance data in multiple dimensions

1. Go to the **Test Statistics** page.
2. Filter by information such as test domain, type, and time range as needed to view the data of key metrics of test tasks. You can also view the details of a test task.

Note:

For more information, see Test Statistics.
