Last updated : 2020-07-09 14:53:38

Dear Tencent Cloud user,

In order to further improve your user experience, we updates the Tencent Cloud Direct Connect service as follows:

1. You should read and sign the Tencent Cloud Direct Connect SLA before creating a connection. For existing connections, please retroactively sign the SLA on the [console](#).
2. Tencent Cloud Direct Connect no longer supports the shared connection feature since August 1, 2020 00:00:00, and you cannot apply for a shared connection via console or APIs then. However, your use of this feature on existing tunnels will be unaffected. If you want to create a connection and access Tencent Cloud, you can [apply for connection](#). For more information on the connection methods, contact your Tencent Cloud rep.

Thank you for your support.
