# Service Level Agreement

Last updated : 2022-03-29 15:37:17

In order to use the Tencent Cloud Elastic Cache service (the "Service"), you should read and observe this Elastic Cache Service Level Agreement (this "Agreement", or this "SLA") and the [Tencent Cloud Service Agreement](#). This Agreement contains, *among others*, the terms and definitions of the Service, Service availability and Service uptime metrics, compensation plan and release of liabilities. Please carefully read and fully understand each and every provision hereof, and the provisions restricting or releasing certain liabilities, or otherwise related to your material rights and interests, may be in bold font or underlined or otherwise brought to your special attention.

Please do not purchase the Service unless and until you have fully read, and completely understood and accepted all the terms hereof. By clicking "Agree"/ "Next", or by purchasing or using the Service, or by otherwise accepting this Agreement, whether express or implied, you are deemed to have read, and agreed to be bound by, this Agreement. This Agreement shall then have legal effect on both you and Tencent Cloud, constituting a binding legal document on both parties.

## 1. Terms and Definitions

### 1.1 Tencent Cloud Elastic Cache Service

means the database service provided by Tencent Cloud used to satisfy your business needs in caching or other scenarios, which is compatible with the Redis protocols. For details, please refer to the Service you purchased, and the contents of the Service provided by Tencent Cloud.

### 1.2 Service Month(s)

means the calendar month(s) within the term of the Service purchased by you. For example, if you purchase the Service for a term of three months starting from March 17, there will be four (4) Service Months (the first Service Month from March 17 to March 31, the second from April 1 to April 30, the third from May 1 to May 31, and the fourth from June 1 to June 16). The availability of the Service will be calculated independently for each Service Month.

### 1.3 Service Unavailability

If all the attempted connections with a specific elastic cache instance fail, and such status lasts for more than one (1) minute, it will be deemed that this specific elastic cache instance is unavailable within such one (1) minute.

### 1.4 Single Instance Service Downtime Calculated in Minutes

**Single Instance Service Downtime Calculated in Minutes = the time when the Service Unavailability of an instance is fixed - the time when the Service Unavailability of the instance starts.** Such downtime will be

calculated in minutes, and when the downtime, or an unrounded portion thereof, is less than sixty (60) seconds, it will be rounded up to one (1) minute. For example, if the actual downtime of a single instance is one (1) minute and one (1) second, the Single Instance Service Downtime Calculated in Minutes would be two (2) minutes. However, when the Service Unavailability of an instance is fixed within one (1) minute, which means that the actual downtime of the instance is less than one (1) minute, such downtime will not be counted in the Service downtime defined herein.

### 1.5 Single Instance Service Downtime within a Service Month

means the sum of the Single Instance Service Downtime Calculated in Minutes within a Service Month.

### 1.6 Total Service Time within a Service Month

equals to the total number of days of the Service Month  $\times$  24 (hours)  $\times$  60 (minutes).

### 1.7 Monthly Service Fee

means the aggregate service fees paid by you for a single instance within one (1) Service Month, excluding the portion paid yet to be consumed, and the portion deducted by a voucher or promotional credits, due to discounted service fee or otherwise deducted.

## 2. Service Availability

### 2.1 Calculation of Service Availability

Service Availability is calculated on a single instance basis as follows:

**Service Availability = (1 - Single Instance Service Downtime within a Service Month / Total Service Time within a Service Month of the single instance)  $\times$  100%**

### 2.2 Service Availability Standard

The Service Availability of the Service provided by Tencent Cloud will be no less than 99.95%. You are entitled to the compensation as set forth in Section 3 below if the Service Availability fails to meet the aforementioned standard, other than in any circumstance as provided for in the release of liabilities provisions below.

## 3. Service Compensation

In respect of this Service, if the Service Availability fails to meet the abovementioned standard, you will be entitled to compensations in accordance with the following terms:

### 3.1 Standards of Compensation

(1) Compensations will be made **in the form of voucher** by Tencent Cloud, and you should follow the rules for using the voucher (including the valid term; for details, please refer to the rules of vouchers published on Tencent Cloud's

official website). You cannot redeem such voucher for cash or request to issue an invoice for such voucher. Such voucher can only be used to purchase the Service by using your Tencent Cloud account. You cannot use the voucher to purchase other services of Tencent Cloud, nor should you give the voucher to a third party for consideration or for free.

(2) If the Service Availability for a Service Month fails to meet the standard, the amount of compensation will be calculated for such month independently, **and the aggregate amount shall be no more than the applicable Monthly Service Fee paid by you for such month** (the Monthly Service Fee referred to herein shall exclude the portion deducted by a voucher or promotional credits, due to discounted service fee or otherwise deducted).

Service Availability (Av) for a Service Month	Value of Compensation Voucher
$99.95\% > Av \geq 99\%$	10% of the Monthly Service Fee
$99\% > Av \geq 95\%$	30% of the Monthly Service Fee
$95\% > Av$	100% of the Monthly Service Fee

### 3.2 Time Limit for Compensation Application

(1) If the Service Availability for a Service Month fails to meet the abovementioned Service Availability standard, you may apply for compensation **through (and only through) the support ticket system under your relevant account** after the fifth (5<sup>th</sup>) business day of the month immediately following such Service Month. Tencent Cloud will verify and ascertain your application upon receipt of such application. If there is any dispute over the calculation of the Service Availability for a Service Month, **both parties agree that the back-end record of Tencent Cloud will prevail**.

(2) **You should apply for such compensation no later than sixty (60) calendar days following the expiry of the applicable Service Month in which the Service Availability fails to meet the standard.** If you fail to make any application within such period, or make the application after such period, or make the application by any means other than that agreed herein, it shall be deemed that you have voluntarily waived your right to apply for such compensation and any other rights you may have against Tencent Cloud, in which case Tencent Cloud has the right to reject your application for compensation and not to make any compensation to you.

### 3.3 Application Materials for Compensation

If you believe that the Service fails to meet the Service Availability standard specified herein, you may apply for compensation within the period of time as stipulated under this SLA, and you should at least provide the following information together with your compensation application:

(1) the ID of the instance for such Service Unavailability.

(2) the duration of the Service Unavailability and evidence thereof (it's advisable to provide a screenshot of the cloud monitoring traffic metrics).

## 4. Release of Liabilities

**If the Service is unavailable due to any of the following reasons, the corresponding Service downtime shall not be counted towards Service Unavailability period, and is not eligible for compensation by Tencent Cloud, and Tencent Cloud will not be held liable to you:**

- 4.1 any system maintenance with prior notice by Tencent Cloud, including system cutover, maintenance, upgrade and malfunction simulation test.
- 4.2 any malfunction or configuration adjustment of any network or equipment that is not Tencent Cloud facility.
- 4.3 any Service Unavailability attributable to any person other than Tencent Cloud, such as hacker attack or negligence of your third-party suppliers.
- 4.4 any slow or no responding of any elastic cache instance under ultra-high performance pressure.
- 4.5 any Service Unavailability due to your use of the Service in a manner exceeding the designed specifications of the product (such as the maximum number of network connections and memory capacity).
- 4.6 any system inaccessibility due to the block of the Service resulting from unpaid overdue payment.
- 4.7 any loss or leak of data, passcode or password due to your improper maintenance or improper confidentiality measures.
- 4.8 any negligence of or operation authorized by you.
- 4.9 any Service Unavailability or failure of the Service to meet the availability standard due to any reason not attributable to Tencent Cloud.
- 4.10 any other circumstances in which Tencent Cloud will be exempted or released from its liabilities (for compensation or otherwise) according to relevant laws, regulations, agreements or rules, or any rules or guidelines published by Tencent Cloud separately.
- 4.11 any event of force majeure.

## 5. Miscellaneous

**5.1 The parties hereto acknowledge and agree that, for any losses incurred by you during the course of using the Service due to any breach by Tencent Cloud, the aggregate compensation amount payable by Tencent Cloud shall under no circumstance exceed the total service fees you have paid for the relevant Service which is not performed.**

5.2 Tencent Cloud has the right to amend the terms of this Agreement as appropriate or necessary in light of changes in due course. You may review the most updated version of relevant Agreement terms on the official website of

Tencent Cloud. If you disagree with such revisions made by Tencent Cloud to this Agreement, you have the right to cease using the Service; by continuing to use the Service, you shall be deemed to have accepted the Agreement as amended.

5.3 As an ancillary agreement to the Tencent Cloud Service Agreement, this Agreement is of the same legal effect as the Tencent Cloud Service Agreement. In respect of any matter not agreed herein, you shall comply with relevant terms under the Tencent Cloud Service Agreement. In case of any conflict or discrepancy between this Agreement and the Tencent Cloud Service Agreement, this Agreement prevails to the extent of such conflict or discrepancy. (End of Document)
