Purchasing a GPU Instance

You need to first purchase a GPU instance as instructed in the Purchase Guide.

Getting Started with a Windows GPU Instance

A Windows GPU instance can be created and configured in the same way as a Windows CVM. For more information, see Customizing Windows CVM Configurations.

Getting Started with a Linux GPU Instance

A Linux GPU instance can be created and configured in the same way as a Linux CVM. For more information, see Customizing Linux CVM Configurations.
