Backend FAQs

What is the limit on concurrent API calls?

The default QPS is 5 calls/sec. If this does not meet your needs, you can contact us to increase the limit.

Resource passing FAQs

See [Passing Resources](#).

SDK integration FAQs

What should I do if "Invoke-customs are only supported starting with Android O (--min-api 26)" appears?

Add the following configuration to the `build.gradle` file:

```
// Java 1.8 is supported
compileOptions {
    sourceCompatibility JavaVersion.VERSION_1_8
    targetCompatibility JavaVersion.VERSION_1_8
}
```

What should I do if there is a resource exception caused by the obfuscation tool AndResGuard used by the integrator?

Add the following obfuscation configuration:

```
// for HuiYanSDK
"R.string.ocr_*",
"R.string.rst_*",
"R.string.net_*",
"R.string.msg_*",
"R.string.fl_*",
```

Errors on devices with an earlier version of system

```
// Vector diagrams for earlier versions
```

```
implementation 'androidx.vectordrawable:vectordrawable:1.1.0'
```

You need **to** update the support dependencies **to** the latest version (v28.0.0):

```
implementation 'com.android.support:appcompat-v7:28.0.0'
```

```
// A component library compatible with vector diagrams for earlier versions
```

```
implementation 'com.android.support:support-vector-drawable:28.0.0'
```

```
implementation 'com.android.support:animated-vector-drawable:28.0.0'
```
