1. INTRODUCTION

This Module applies if you use Tencent Distributed Message Queue (TDMQ) ("**Feature**"). This Module is incorporated into the privacy policy located at **Privacy Policy**. Terms used but not defined in this Module shall have the meaning given to them in the Privacy Policy. In the event of any conflict between the Privacy Policy and this Module, this Module shall apply to the extent of the inconsistency.

2. CONTROLLERSHIP

The controller of the personal information described in this Module is as specified in the Privacy Policy.

3. AVAILABILITY

This Feature is available to users globally.

4. HOW WE USE PERSONAL INFORMATION

We will use the information in the following ways and in accordance with the following legal basis:

Personal Information	Use	Legal Basis
Log Data: timestamp, log information (including connection information, such as IP address, message length, message produce time)	We use this information for the purpose of providing the Feature to you, and for troubleshooting. Please note that this data is stored in the Cloud Log Service (CLS) feature.	We process this information as it is necessary for us to perform our contract with you to provide the Feature.
Monitoring Data : produce rate, consume rate, produce throughput (bytes of message produced by the MQ client), consume throughput (bytes of message consumed by	We use this information for the purpose of providing the Feature to you, and for troubleshooting.	We process this information as it is necessary for us to perform our contract

| the MQ client) , message storage usage, unpacked message count | Please note that this data is stored in the Cloud Monitor (CM) feature. | with you to provide the Feature. |

5. HOW WE SHARE AND STORE PERSONAL INFORMATION

As specified in the Privacy Policy.

6. DATA RETENTION

We will retain personal information in accordance with the following:

Personal Information	Retention Policy
Log Data	Stored for 15 days.
Monitor Data	Stored for 30 days.

Data Processing and Security Agreement

1. BACKGROUND

This Module applies if you use Tencent Distributed Message Queue (TDMQ) ("**Feature**"). This Module is incorporated into the Data Privacy and Security Agreement located at **DPSA**. Terms used but not defined in this Module shall have the meaning given to them in the DPSA. In the event of any conflict between the DPSA and this Module, this Module shall apply to the extent of the inconsistency.

2. PROCESSING

We will process the following data in connection with the Feature:

Personal Information	Use
Configuration Data: transactions per second (TPS) quota, storage quota, topic quota, message duration, cluster name, namespace policy, topic name, topic type, subscription name, role token, role authentication	We only process this data for the purposes of providing the Feature to you in accordance to your specific configuration.
Message Data: message properties (such as the length of message, message ID), message key, message content	We only process this data for the purposes of providing the Feature to you.

3. SERVICE REGION

As specified in the DPSA.

4. SUB-PROCESSORS

As specified in the DPSA.

5. DATA RETENTION

We will store personal data processed in connection with the Feature as follows:

Personal Information	Retention Policy
Configuration Data	We retain such data until you manually delete such data. Otherwise, when you delete your account or terminate your use of the Feature, we will delete such data after 7 days.
Message Data	We retain such data until you receive and consume the message.

You can request deletion of such personal data in accordance with the DPSA.

6. SPECIAL CONDITIONS

You must ensure that this Feature is only used by end users who are of at least the minimum age at which an individual can consent to the processing of their personal data. This may be different depending on the jurisdiction in which an end user is located.
