Release Notes

Last updated : 2024-02-02 15:15:26

May 2022

Update	Description	Release Date	Documentation
Released CDWPG 3.5.1	Billing details can be displayed on the purchase page.	2022-05-15	-
Released CDWPG 3.4.4	The cloud disk-based 16-core 64 GB MEM model is launched.		

April 2022

Update	Description	Release Date	Documentation
Released CDWPG 3.4.3	JAVA/PL function management is supported.	2022-04-29	-

March 2022

Update	Description	Release Date	Documentation
Released CDWPG 3.3.6	The I/O performance of cloud disk-based models is improved by 300%.	2022-03-31	-
Released CDWPG 3.3.1	The elastic storage-based 8-core 32 GB MEM model is launched.	2022-03-11	-

February 2022

Update	Description	Release Date	Documentation
Released	The network architecture is restructured, and the xid age	2022-	-

CDWPG 3.2.1 Released CDWPG 3.2.2	problem can be monitored internally. The service is available in Singapore Zones 2 and 3 and Frankfurt Zone 2.	02-28	
--	---	-------	--

January 2022

Update	Description	Release Date	Documentation
Released CDWPG 2.9.9	The PXF extension (beta) is integrated to enrich the external table ecosystem.	2022-01-14	-

December 2021

Update	Description	Release Date	Documentation
Released CDWPG 2.9.4 Released CDWPG 2.9.5	The frontend logic is optimized to deliver a new permission prompt experience. The node IP information is added on the cluster list page in the console.	2021-12-24	-
Released CDWPG 2.9.3	Automatic inspection and repair are supported for compute nodes in the cluster.	2021-12-10	-

September 2021

Update	Description	Release Date	Documentation
Released CDWPG 2.8.2	The service is available in Hong Kong (China) Zones 2 and 3.	2021-09-19	-
Released CDWPG 2.8.0	The calculation model is changed to a more flexible four-tier billing model.	2021-09-13	-

July 2021

Update	Description	Release Date	Documentation
Released CDWPG 2.7.0	New cluster monitoring metrics (resource queue concurrency and persistent link) are added. The kernel is upgraded to be compatible with v6.16.2 in the community. The cluster network architecture is upgraded to improve the security.	2021-07-30	-

June 2021

Update	Description	Release Date	Documentation
Released CDWPG 2.6.7	Frontend pages are redesigned to optimize the frontend logic experience.	2021-06-30	-

November 2020

Update	Description	Release Date	Documentation
Released CDWPG 2.3.1	The mysql2gp sync tool v1.1 is released to optimize the insert performance. The auto-renewal flag is added on the CDWPG cluster list page. The cluster kernel stability is improved.	2020-11-26	-

October 2020

Update	Description	Release Date	Documentation
Released CDWPG 2.3.0	A composite search box is added in the CDWPG cluster console to support filtering clusters by name, ID, tag, or AppID.	2020-10-29	-

September 2020

Update	Description	Release Date	Documentation
Released CDWPG 2.2.0	Storage-elastic clusters can be created based on cloud disks. The cloud disk capacity of storage-elastic clusters can be expanded.	2020-09-17	-

August 2020

Update	Description	Release Date	Documentation
Released CDWPG 2.1.0	CDWPG clusters can be bound to tags, so that resources can be easily managed by tag. Resource-level authentication policies are added in the cluster dimension. The service is available in Beijing Zone 5.	2020-08-12	-

July 2020

Update	Description	Release Date	Documentation
Released CDWPG 2.0.0	The 320 GB and 480 GB disk sizes are added for the nc.large model.	2020-07-16	-

June 2020

Update	Description	Release Date	Documentation
Released CDWPG 1.9.0	The real-time sync tool is released.	2020-06-18	-

May 2020

Update	Description	Release Date	Documentation
Released CDWPG 1.8.0	Kafka data can be imported in real time.	2020-05-15	-

April 2020

Update	Description	Release Date	Documentation
Released CDWPG 1.7.0	The new ns2.large model is released.	2020-04-23	-
Released CDWPG 1.6.0	The underlying Greenplum kernel is upgraded to v6.x.	2020-04-09	-

March 2020

Update	Description	Release Date	Documentation
Released CDWPG 1.5.0	The new nc2.large and nc2.4xlarge models are released.	2020-03-25	-

January 2019

Update	Description	Release Date	Documentation
Released CDWPG 1.4.0	Access blocklists can be configured and resource queues can be managed in the console.	2019-01-21	-

December 2018

Update	Description	Release Date	Documentation
Released	Multiple instance specifications are supported in prepaid and	2018-	-

CDWPG 1.3.0	postpaid billing modes, and CDWPG public beta starts.	12-13	
----------------	---	-------	--

November 2018

Update	Description	Release Date	Documentation
Released CDWPG 1.2.0	Public IPs can be created and access allowlists can be configured in the console.	2018-11-12	-

October 2018

Update	Description	Release Date	Documentation
Released CDWPG 1.1.0	Quick scaling is supported in the console, and CDWPG is connected to Oceanus, allowing you to perform configuration in the Oceanus console to import data into CDWPG in real time.	2018-10-10	-

August 2018

Update	Description	Release Date	Documentation
Released CDWPG 1.0.0	Data warehouse clusters can be created on standard specification nodes. Clusters can be managed and basic cluster performance monitoring data can be queried in the console. COS data can be queried and analyzed.	2018-08-06	-
