Pricing Overview

Mobile/Desktop

Last updated : 2024-07-23 17:49:17

The Tencent Effect SDK is supported on multiple platforms. Its pricing for mobile/desktop applications is as detailed below.

The Tencent Effect SDK is divided into 4 series: **basic editions (A series)**, **advanced editions (S series)**, **avatar editions (V series)**, and **X series capabilities**. They differ in features. You can choose one that best fits your needs.

[Basic A series packages](#) offer basic beautification features and are suitable for customers that do not have high requirements for facial beautification.

[Advanced S series packages](#) offer advanced beautification features (including stickers and makeup effects) and are suitable for customers with high requirements for facial beautification.

[Avatar V series packages](#) offer virtual avatars, avatar customization, and facial expression mirroring. They are designed for applications such as avatar-based socializing and live streaming.

[X series](#) offers Tencent Effect services at the capability level, to give you greater flexibility and scalability.

The Tencent Effect SDK packages can be purchased on an **annual** basis. Among them, the basic A series packages A1 - 00, A1 - 01, A1 - 02, and A1 - 03, and the X series capability X1 - 01 can be purchased on a **monthly** basis. For pricing details, see [Pricing](#).

You can integrate only the capabilities you need. For details, see [Features](#). You need to [purchase](#) different licenses (packages) to use different editions of the Tencent Effect SDK.

Pricing

-----------------------	---	------------

Billing Details

The licenses will become active immediately after you purchase them. Please bind the package name in the console as soon as possible after purchase.

One Tencent Effect license can be bound to one mobile or desktop application. On mobile, a license can be bound to one bundle ID and one package name. On desktop, it can be bound to one Windows process name and one macOS bundle ID. Modifications are not allowed after binding. A license cannot be bound to a mobile application and a desktop application at the same time. If you need to use Tencent Effect with multiple applications, you need to purchase multiple licenses.

A license is valid for one year. After it expires, you need to purchase a new license; otherwise, the corresponding features will become unavailable.

Shadow packages: You can use two shadow packages for free if you purchase a Tencent Effect package that's priced 65,000 USD or higher. Please contact sales for the shadow packages. You need to provide the bundle ID/package name for both your official application and shadow applications. If you want to have more than two shadow applications, please purchase additional shadow packages (5,000 USD each).

Purchased materials are valid for one year. To continue using the materials after they expire, you need to purchase them again.

Materials can only be used with the license specified at the time of purchase. We prohibit all forms of material exchange, including but not limited to gifting, resale, and renting. Tencent Cloud reserves the right to **take legal action against violators**.

Billing Example

Suppose you purchased the Basic A series package A1-02 and bound the license (license A) to your application on January 1, 2022. Then on June 1, 2022, you purchased the Advanced S series package S1-01, got license B, unbound license A from your application, and bound license B to it.

License A is valid until 00:00:00 on January 2, 2023. With it, you can use the features of package A1-02, including basic beautification, image settings, basic beautification, filters, and stickers.

License B is valid until 00:00:00 on June 2, 2023. With it, you can use the capabilities of package S1-01, including basic beautification, image settings, advanced beautification, filters, stickers, advanced stickers, and makeup effects.

That means from January 1, 2022 to June 1, 2022, **before you unbound license A**, your application can use the features of package A1-02 (basic beautification, image settings, basic beautification, filters, and stickers). From June 1, 2022 to 00:00:00 on June 2, 2023, **after you bound license B**, your application can use the features of package S1-01 (basic beautification, image settings, advanced beautification, filters, stickers, advanced stickers, and makeup effects).

After unbinding license A, you can bind it to another application, which can use the features of package A1-02 until 00:00:00 on January 2, 2023.

Web

Last updated : 2024-05-29 10:36:53

Beauty AR Web is available for different platforms. This document describes the billing details of Tencent Effect Web. Beauty AR Web comes in two editions: **Standard**, **Professional** and **Advanced**. The **Standard** edition offers capabilities including beautification, filters, makeup effects, 2D stickers, and virtual backgrounds. The Professional and Advanced edition offers **3D stickers**, **Animoji**, and **virtual avatars** in addition to the capabilities of the Standard edition. Among them, **only the Advanced version supports wildcard domains**.

You can [buy](#) a package that fits your needs.

Pricing

Capability	Standard	Professional	Advanced
Beautification Brightening, smooth skin, slim face, V shape, big eyes, chin	✓	✓	✓
Filters 19 free materials	✓	✓	✓
Makeup 10 free materials	✓	✓	✓
2D stickers 10 free materials	✓	✓	✓
Virtual backgrounds Blurred, transparent, and custom backgrounds <i>(not supported on Mini Programs)</i>	✓	✓	✓
3D stickers 7 free materials	-	✓	✓
Animoji 4 free materials <i>(not supported on Mini Programs)</i>	-	✓	✓
Virtual avatars 10 free materials <i>(not supported on Mini Programs)</i>	-	✓	✓

Domain		Absolute domain	Absolute domain	Wildcard domains
Price	Monthly payment (USD/month)	999 USD/month	1,499 USD/month	5,999 USD/month
	Annual payment (USD/year)	9,999 USD/year	14,999 USD/year	59,999 USD/year

Billing Details

Each license can be bound to one domain and one Weixin Mini Program AppID. **For official licenses, modifications are not allowed after binding. You can use localhost for testing purposes.** If you want to use Tencent Effect for multiple domains, you need to buy multiple licenses.

About domains:

A absolute domain name refers to a fixed domain address, such as: `a.com` , `a.b.com` , `a.b.c.com` , etc., which are unique and fixed domain addresses.

A wildcard domain name refers to a series of domain addresses with the same domain suffix, such as the wildcard domain `*.a.com` . After binding the license, domain names with the same domain suffix, such as `a.a.com` , `b.a.com` , `c.a.com` , etc., can unlock the package capability. The `*` position can support the customization of multi-level domain names, such as `b.c.a.com` , `b.c.d.a.com` , etc.

When a license expires, to continue using Tencent Effect, you need to renew the license. To avoid interrupting your business, we recommend you enable auto-renewal. For details, see [Adding and Renewing a License \(Web\)](#).

The materials offered by a package can only be used with one license. We prohibit all forms of material exchange, including but not limited to gifting, resale, and renting. Tencent Cloud reserves the right to take legal action against violators.

Purchase Guide

Last updated : 2023-04-14 16:59:22

1. Sign up

[Sign up](#) for a Tencent Cloud account and [log in](#). If you already have one, simply [log in](#).

2. Purchase an official license

Go to the [Purchase Page](#) and buy a Tencent Effect package that meets your project requirements. After obtaining the license, follow the steps below to bind the license to your application in the Tencent Effect console.

Note

You can first [apply for a trial license](#) and download the SDK for the corresponding platform as described in [SDK Download](#) to try out the product features.

3. Create an application and bind a license

Go to the [Tencent Effect console](#) to bind the license to your application. For detailed directions, see [Adding and Renewing a License \(Mobile\)](#).

Note

You cannot change the bundle ID/package name bound to an official license. Therefore, double check before you bind a license.

4. Contact us

If you encounter any problems when purchasing and binding a production license, [submit a ticket](#) or **contact your Tencent Cloud rep** for assistance.

Payment Overdue and Refund

Last updated : 2023-07-21 15:32:19

Note:

If you are a customer of a Tencent Cloud partner, the rules regarding resources when there are overdue payments are subject to the agreement between you and the partner.

Refund Policy

Tencent Effect SDK and effect materials are not refundable. They come with a 28-day trial period, during which you can stop using them at any time if you are not satisfied. Once a purchased license is bound to an app, the SDK cannot be refunded. Effect materials cannot be refunded either, as they cannot be repossessed once downloaded.

Overdue Payment Policy

Tencent Effect SDK licenses and effect materials are prepaid. You cannot place an order if there is no sufficient balance in your account.
