iPaaS Policy
Data Processing And Security Agreement

Last updated：2023-07-26 12:44:09

1.Background

This Module applies if you use Tencent Cloud iPaaS (“Feature”). This Module is incorporated into the Data Processing and Security Agreement located at “DPSA”. Terms used but not defined in this Module shall have the meaning given to them in the DPSA. In the event of any conflict between the DPSA and this Module, this Module shall apply to the extent of the inconsistency.

2.PROCESSING

We will process the following data in connection with the Feature:

Personal Information	Use
Metadata and Operational Status Data: Configuration information and running status of integrated applications and API services (group ID, project ID, instance ID, runtime ID, version, tag, update time, created time, status, component ID, remark)	We only process this data for the purposes of providing the Feature to you and your end users, in accordance to your specific configuration. Please note that this data is stored and backed up in our TencentDB for MySQL feature.

3.service region

As specified in the DPSA.

4.SUB-Processors

As specified in the DPSA.

5.data retention

We will store personal data processed in connection with the Feature as follows:

Personal Information	Retention Policy
Metadata and Operational Status Data	We retain this data until you request deletion of the same, in which case we will delete such data within 30 days.

©2013-2022 Tencent Cloud. All rights reserved.

You can request deletion of such personal data in accordance with the DPSA.

6.special conditions

You must ensure that this Feature is only used by end users who are of at least the minimum age at which an individual can consent to the processing of their personal data. This may be different depending on the jurisdiction in which an end user is located.

Privacy Policy

Last updated：2023-07-26 12:44:22

1.Introduction

This Module applies if you use Tencent Cloud iPaaS (“Feature”). This Module is incorporated into the privacy policy located at “Privacy Policy”. Terms used but not defined in this Module shall have the meaning given to them in the Privacy Policy. In the event of any conflict between the Privacy Policy and this Module, this Module shall apply to the extent of the inconsistency.

2.Controllership

The controller of the personal information described in this Module is as specified in the Privacy Policy.

3.Availability

This Feature is available to users globally but primarily intended for users located in the same country/region as the selected service region for optimal performance.

4.How We Use Personal Information

Personal Information	Use	Legal Basis
Running Log Data: Run time, log level, job ID, flow name, application name, connector name, operation name, log category, and runtime name	We only process this data for the purposes of providing the Feature to you and your end users. Please note that this data is backed up in our Elasticsearch Service (ES) feature.	We process this information as it is necessary for us to perform our contract with you to provide the Feature.
Audit Log Data: Audit time, user name, userID, result, project name, audit module, audit category, and audit content	We only process this data for the purposes of providing the Feature to you and your end users, and for compliance with Tencent Cloud audit requirements. Please note that this data is and temporarily stored in our Tencent Cloud Kafka feature, and stored and backed up in our ES feature.	We process this information as it is necessary for us to perform our contract with you to provide the Feature.

5.How We Store and Share Personal Information

As specified in the Privacy Policy.

©2013-2022 Tencent Cloud. All rights reserved.

6.Data Retention

We will retain personal information in accordance with the following:

Personal Information	Retention Policy
Running Log Data	Stored for 7 days.
Audit Log Data	Stored for 1 year (unless you terminate your use of the Feature, in which case we will delete this data within 30 days of termination).
