Operation Guide
Registration and Login

Last updated：2024-06-14 10:45:47

Overview

Before using the Tencent Cloud console, you must first sign up for a Tencent Cloud account. This task guides you to register and log in to the Tencent Cloud console.

Directions

Signing up for a Tencent Cloud account

You can register for a Tencent Cloud account using either email or Google account. For detailed operation methods, please refer to Signing up.

Logging in to the Tencent Cloud console

1. After registration, return to the official website homepage of Tencent Cloud. Click on the Console on the right side of the top navigation bar, to enter the login page of the Tencent Cloud console.
2. Log in to the Tencent Cloud console with your email or Google account. After the page is redirected, account information appears at the top right corner of the navigation bar and the top of the page, indicating you have successfully logged in.

Changing the Password

Last updated：2024-06-14 10:45:47

The Tencent Cloud account password is the most important credential for ensuring your account's security. Keep it safe and change it regularly when conditions permit.

It is recommended to change the password at least once every 90 days.

The new password must be different from the last 3 passwords.

The password must contain 8-20 characters, including letters, digits, and punctuation except spaces such as dots (.), slashes (/), and underscores (_).

For specific method of modifying the password, refer to Modifying Account Password.
