User Tutorial

Last updated : 2023-05-23 10:31:50

This document helps you get started with TencentDB for Redis.

1. Basic Knowledge

[How does TencentDB for Redis work?](#)

[Why TencentDB for Redis?](#)

[What are some typical TencentDB for Redis use cases?](#)

[What are the use limits of TencentDB for Redis?](#)

2. Billing Mode

TencentDB for Redis is billed on a **pay-as-you-go** basis. For more information, see [Billing Overview](#) for details.

3. Getting Started

3.1 Creating TencentDB for Redis instances

Before using TencentDB for Redis, you need to sign up for a Tencent Cloud account and purchase a TencentDB for Redis instance. For more information, please see [Creating TencentDB for Redis Instances](#).

3.2 Connecting to TencentDB for Redis instances

You can access the TencentDB for Redis instance over both the private and public networks from a CVM instance. For more information, please see [Connecting to TencentDB for Redis Instances](#).

4. Console UI

Below is the overview page of the TencentDB for Redis console.

Instance ID / Name	Status/Monitoring	Project	Availability Zone	Network	Billing Mode	Architecture	Instance Edition
redis_cache	Running	Default Project		9(IPv4)	Pay as you go	Redis 4.0Standard Architecture	Memory Edition

5. Console Features

[Assigning Instance to Project](#)

[Changing Instance Specification](#)

[Enabling/Disabling Read/Write Separation](#)

[Clearing Instance](#)

[Terminating Instance](#)

[Upgrading Instance Version](#)

[Upgrading Instance Architecture](#)

[Configuring Multi-AZ Deployment](#)

[Backing up Data](#)

[Restoring Data](#)

[Cloning Data](#)

[Configuring Network](#)

[Configuring Security Group](#)

[Monitoring](#)

[Managing Account](#)

[Disabling Commands](#)

6. FAQs

[How do I connect to a TencentDB for Redis instance?](#)

[What should I do if the connection to TencentDB for Redis failed?](#)

[How do I view the private/public network address?](#)

[What should I do if I accidentally delete my account or forget the password?](#)

[How do I return a database?](#)

7. Feedback and Suggestions

If you have any questions or suggestions when using TencentDB for Redis, you can submit your feedback through the following channels. We will get back to you as soon as possible.

For questions about the product documentation, such as links, content, or APIs, click **Send Feedback** on the right of the document page.

If you encounter any problems while using the product, submit a ticket for assistance.
