Identity Verification Individual Identity Verification Guide

Last updated : 2024-01-19 10:45:46

Overview

This document describes how to verify individual identity for your Tencent Cloud account. After successful verification, the account and the Tencent Cloud resources under it will belong to you. You will be able to purchase or manage resources for individual businesses. However, you cannot purchase or use resources designated for organization businesses or apply for VAT invoices for them.

Note:

One passport/driver's license number can be used to verify the identity of up to one Tencent Cloud accounts. If your resources are in the Mainland China, and you want to apply for ICP filing for service in Mainland China in the future, please make sure that the name in identity verification is the same as that of the ICP filing entity; otherwise, ICP filing application will fail.

The following describes how to verify your individual identity in detail.

Prerequisites

You need to have a Tencent Cloud account. If you don't have an account, you can sign up for one as instructed in Signing up for Tencent Cloud Account.

Directions

Step 1. Select individual identity verification

1. Log in to the Tencent Cloud Console and go to Account Information, navigate to **Basic Information** > Verification Status, and click Submit for Verification.

Tencent Cloud	Overview	Products ~	+	
Account Center	Account In	formation

Step 2. Enter basic individual information

The International Tencent Cloud website allows you to verify your individual identity with your passport, driver's license or work permit . After entering all required information, please click **Submit**.

The Tencent Cloud team will review the application within two to three business days and notify you of the result through the console Message Center, email, and SMS.

Enterprise Identity Verification Guide

Last updated : 2024-01-19 10:45:46

Overview

This document describes how to verify enterprise identity for your Tencent Cloud account. After successful verification, the account and Tencent Cloud resources under it will belong to your enterprise. You will be able to purchase and manage resources for enterprises, but will not be able to purchase or use resources designated for individual businesses.

Note:

One set of enterprise identity information (enterprise name/business number) can be used to verify the identity of up to five Tencent Cloud accounts.

Prerequisites

You need to have a Tencent Cloud account. If you don't have an account, you can sign up for one as instructed in Signing up for Tencent Cloud Account.

Directions

Step 1. Select enterprise identity verification

1. Log in to the Tencent Cloud Console and go to Account Information, navigate to **Basic Information** > Verification Status, and click Submit for Verification.

S Tencent Cloud	Overview Products ~ +	
Account Center	Account Information	
Account Information	Basic Info	ormation
Security Setting	Account Err	nail
Project Management	Account Ali	as
Identity	Account ID	
Verification	APPID	
Message Subscription ☑		
	Contact I	nformation Modify
	Full Name	

2. Read and agree to the Terms of Service.

3. Select Enterprise Verification.

Step 2. Enter basic enterprise information

Enter the following enterprise information in the console:

- 1. Enterprise name.
- 2. Registered address.
- 3. Business Registration Number;
- 4. Photo for enterprise verification.

After entering the information above, click **Submit** to initiate identity verification.

The Tencent Cloud team will review the application within two to three business days and notify you of the result through the console Message Center, email, and SMS.

Identity Verification Change Guide

Last updated : 2023-12-26 15:47:55

This document describes how to change the identity information of a Tencent Cloud account whose individual/organization identity has already been verified. The verified identity determines an account's ownership. After the identity of an account is verified, we recommend that you do not change the identity information arbitrarily. **Note:**

There is no time limit on changing an individual identity to an organization identity. Other types of identity information change need to be made 30 days after last successful identity verification.

You can submit a ticket to withdraw the application at any time before the application is approved or rejected, and the originally verified entity will stay unchanged.

Resources and incurred fees are subject to the originally verified entity before the application is approved.

Step 1. Initiate identity information change

1. Log in to the Tencent Cloud Console and go to Account Information, navigate to **Basic Information** > Verification Status, and click View/Change Verification.

Tencent Cloud	Overview	Products ~	SSL Certificate Service	Cloud Object Storage	Cloud Block Storage	Cloud Log Service	Game Multimedia	Engine
Account Center	Account li	nformation						
Account Information			Basic Inform	ation				
Security Setting			Account Email				Verification Status	Verified
Project Management			Account Alias	-			Industry	Not fille
Identity			Account ID				Mobile	
Verification			APPID				Email	
Message Subscription 🗳								

2. On the identity verification information page, click **Reverify**.

Step 2. Select the identity type

Select the target identity type: individual or organization.

Changing individual identity to organization identity

1. Select Organization Verification and click Verify Now.

2. Enter the basic organization information.

Enter the following organization information in the console:

- 1. Enterprise Name.
- 2. Registered address.
- 3. Business Registration Number.
- 4. Photo for organization verification.

After entering the information, click **Submit**. The Tencent Cloud team will review the application within two to three business days and notify you of the result through the console Message Center, email, and SMS.

Changing individual identity to another individual identity

1. Select Individual Verification and click Verify Now.

2. The International Tencent Cloud website allows you to verify your individual identity with your passport, driver's license or work permit. After entering all required information, please click **Submit**.
