Billing Overview

Last updated : 2022-04-25 18:02:44

Tencent Cloud DTS (excluding the data subscription service) is currently in beta test. You can use it free of charge.

After the beta test, this product will be commercially available. We will announce its formal launch in [What's New](#). If price changes, we will notify you in advance through Message Center and SMS.

For more information, please [contact us](#).

Data Migration

The data migration service is currently in beta test. You can use it free of charge. We will notify you in advance if price changes.

Data Sync

The data sync service is currently in beta test. You can use it free of charge. We will notify you in advance if price changes.

Data Subscription

Billing for the data subscription service officially started on March 19, 2020. Beta users can still use data subscription free of charge for one month with monthly subscription. After one month, you need to manually renew the service or change it to pay-as-you-go.

Your subscription service will be isolated after expiration, which will affect your normal business. Please follow Tencent Cloud notifications and renew the service in time.

Billing Mode

Note :

Monthly subscription is currently in beta. This pricing document is for reference only, please see your bill for the actual price. If you wish to use this billing option, please [contact sales](#).

Billing Mode	Payment Mode	Use Case
Monthly subscription	Fees are prepaid when a subscription instance is created.	<ul style="list-style-type: none"> Suitable for businesses with long-term stable needs as the rates are lower than the pay-as-you-go option. Longer-term purchases result in increased savings. Monthly subscription cannot be changed to pay-as-you-go.
Pay-as-you-go	It is a postpaid mode where a bill will be generated once per hour and fees will be deducted from your Tencent Cloud account accordingly.	Suitable for business scenarios where traffic fluctuates greatly. The instance can be released immediately after use to save costs.

Pricing Details

One data subscription instance corresponds to one TencentDB for MySQL instance, and up to 20 channels can be enabled for one instance. The monthly fee of a data subscription instance is as follows:

Region	Linkage Configuration Fee	Data Storage Fee	Public Network Traffic Fee
The mainland of China	<ul style="list-style-type: none"> Monthly subscription: 105 USD/month Pay-as-you-go: 0.36 USD/hour 	Free of charge for now	Free of charge for now
Regions outside the mainland of China and finance AZs	<ul style="list-style-type: none"> Monthly subscription: 126 USD/month Pay-as-you-go: 0.44 USD/hour 	Free of charge for now	Free of charge for now

Billing Formula

Suppose a subscription instance generates X GB data in one month and pulls Y GB data over the public network:

Total fees = Linkage configuration fee + Data storage fee * X + Public network traffic fee * Y

Currently, data storage and public network traffic are free of charge.

DTS-DBbridge

DTS-DBbridge can be purchased offline. Please [submit a ticket](#) to apply for a trial license for testing. If you need to purchase an official license, please [submit a ticket](#) and we will get back to you.

Refund

Last updated : 2021-08-03 15:09:43

- Pay-as-you-go billing: the **data subscription** service will return resources directly, and no refund can be requested.

You can perform self-service return in the data subscription list in the [DTS Console](#).
