## Introduction to Account Ownership in Real-name Authentication

Last updated: 2024-08-16 19:28:49

Tencent Cloud account real-name authentication is divided into individual and enterprise verification. The following videos and documents will introduce the differences between personal and enterprise authentication.

[Watch video](#)

### Account Ownership Differences

Type	Individual Identity Verification Guide	Enterprise Identity Verification Guide
Applicable Entities	Individuals	Enterprises, individually owned businesses, government agencies, public institutions, schools, organizations, etc
Account Ownership	Individuals	Enterprises
Authentication Method	<ul style="list-style-type: none"><li><a href="#">WeChat QR Code Authentication</a></li><li><a href="#">QQ QR Code Authentication</a></li><li><a href="#">Face Recognition Authentication</a></li></ul>	<ul style="list-style-type: none"><li><a href="#">WeChat Official Account Authentication</a></li><li><a href="#">Corporate Legal Person WeChat QR Code Authentication</a></li><li><a href="#">Corporate Legal Person Face Recognition Authentication</a></li><li><a href="#">Tencent Cloud Recharge Authentication</a></li><li><a href="#">Corporate Public Remittance Authentication</a></li></ul>
Real-name Authentication Difference	Eligible for Personal Operations Activities Cannot apply for Value-Added Tax Special Invoice	Eligible for Corporate Operations Activities Can apply for Value-Added Tax Special Invoice

 **Warning**

Identity verification directly affects the ownership of accounts and resources in Tencent Cloud. If an enterprise account uses individual identity verification, then future changes in personnel or other account issues may have an impact on the enterprise's business operations and may lead to financial losses. Before performing identity verification, make sure to confirm whether the Tencent Cloud resources you purchase are used for individual or enterprise operations.

## Note

- For individual identity verification, the same identity information (ID number) can be used to verify up to three Tencent Cloud accounts.
- For enterprise identity verification, the same enterprise identity information (enterprise name/business license) can be used to verify up to ten Tencent Cloud accounts. If the number of verified accounts does not meet business requirements, please contact your account manager for assistance.
- To apply for ICP, ensure that the name used in identity verification matches the name of the filing entity; otherwise, the ICP application will fail.
- After completing identity verification, you must wait 30 days to submit a request for identity information change; there is no time restriction for changing an individual entity to a corporate entity.
- Individual identity verification can be changed to another individual or enterprise verification. For specific steps, please see [Change Individual Authentication Information](#).
- Individual users from Hong Kong (China), Macao (China), and Taiwan (China) can complete identity verification by authorizing reserved identity information via WeChat scan code. The WeChat account must use the Hong Kong and Macao Residents' Travel Permit to Mainland China or the Taiwan Residents' Travel Permit to Mainland China for real-name authentication and must be linked to a Mainland bank card.
- Individual real-name authentication supports Chinese mainland residents using ID cards, Hong Kong and Macao users using the Mainland travel permit, and Taiwan (China) users using the Travel Permit to Mainland China. For other types of international ID, please verify your identity at the [International Site](#).
- Individual identity verification is available for users aged 18 and above.

# Individual Identity Verification Guide

## Authentication Method Overview

Last updated: 2024-08-16 19:29:12

If you want to participate in Tencent Cloud's individual business activities or wish to have the account and Tencent Cloud resources under your name, you need to perform personal identity verification.

Personal identity verification supports the following three methods:

- [WeChat QR Code Authentication](#)
- [QQ QR Code Authentication](#)
- [Face Recognition Authentication](#)

## Authentication Process

## Notes

- The same identity information can be used to verify up to three Tencent Cloud accounts.
- Supports Chinese mainland residents using their ID cards for verification, Hong Kong and Macau users using Travel Permits for entering the Mainland, and Taiwan (China) users using Mainland Travel Permits. For other types of international documents, please go to the [International Site](#) for verification.
- To apply for ICP, ensure that the name used in identity verification matches the name of the filing entity; otherwise, the ICP application will fail.

- Users who have undergone personal identity verification cannot participate in enterprise-level business activities and cannot apply for Value-Added Tax Special Invoices.
- To ensure the security of your account and identity information, the system will recommend the most suitable authentication method based on your account's status. Please follow the system's recommended method for identity verification.
- Individual identity verification is available for users aged 18 and above.

# Authenticate via WeChat QR code

Last updated: 2024-08-19 17:12:30

## Operation scenarios

This document will guide you through the process of personal identity verification using WeChat QR code.

## Prerequisites

You have [registered a Tencent Cloud account](#).

## Operation step

1. log in to the Tencent Cloud console and go to the [Real-name Authentication](#) page.
2. Select **Personal authentication**, click **Start Personal Authentication**.

### 选择认证类型

实名认证时，企业主体请尽量避免使用个人认证方式，以免企业人员变动或交接引起不必要的纠纷。

个人认证

- 适用个人用户，账号归属于个人
- 中国内地居民支持微信扫码实名、人脸识别实名及 QQ 扫码实名，其他用户支持微信扫码实名
- 可开个人/企业/组织增值税普通发票，不支持企业增值税专用发票
- 同 1 个身份信息可实名最多 3 个腾讯云账号

开始个人认证

[个人如何完成实名认证?](#)

企业认证

- 适用企业、个体工商户、政府、事业单位、学校、组织等，账号归属企业
- 支持微信公众号扫码认证、充值认证、企业对公打款认证
- 可开增值税专用发票
- 一个企业信息主体默认认证 10 个腾讯云账号

开始企业认证

[企业如何完成实名认证，有几种方式?](#)

3. On the **Fill in basic information** page, enter your real name, identification type, identification number, industry information, and communication address, click **Next**.

### Mainland ID Card

# Enterprise Identity Verification Guide

## Authentication Method Overview

Last updated: 2024-08-16 19:33:09

If your Tencent Cloud account and resources belong to your enterprise, or if you want to participate in enterprise-related activities on the Tencent Cloud official website, you need to complete enterprise real-name authentication. The enterprise authentication supports the following methods:

 **Attention:**

Non-industrial and commercial enterprises cannot use the Corporate Legal Person WeChat QR Code Authentication method. They can authenticate via Corporate Legal Person Face Recognition.

Authentication Method	Authentication duration	Description
WeChat Official Account Authentication	Immediate completion	For enterprises with registered WeChat official accounts that have undergone WeChat real-name authentication, this method allows immediate authentication.
Corporate Legal Person WeChat QR Code Authentication	Immediate completion	Using the corporate legal person's personal WeChat for QR code authentication. Upon WeChat scan authorization by the legal person, the authentication is completed.
Corporate Legal Person Face Recognition Authentication	Immediate completion	Using the corporate legal person's personal WeChat for Face Recognition. After successful Face Recognition, the authentication is completed.

Tencent Cloud Recharge Authentication	1 business day	By recharging a specific small amount randomly generated by the system (less than 1 yuan) into the corporate bank account (the amount will be credited to the balance), the authentication will be completed once Tencent Cloud receives the payment.
Corporate Public Remittance Authentication	1-5 business days	Enter the corporate bank account information. After Tencent Cloud successfully makes the payment, fill in the payment amount to complete the authentication.

Authentication Process

## Notes

- The default enterprise identity information (enterprise name/business license) supports the identity verification of up to 10 Tencent Cloud accounts. If this is insufficient for your business needs, please contact your account manager for assistance.
- Hong Kong (China), Macao (China), and Taiwan (China) enterprise users and overseas users please proceed to the [International Site](#) for authentication.
- To apply for ICP, ensure that the name used in identity verification matches the name of the filing entity; otherwise, the ICP application will fail.
- Users with enterprise real-name authentication can participate in enterprise-level operation activities and apply for Value-Added Tax Special Invoices.

# Authenticate via WeChat Public Platform

Last updated: 2024-08-16 19:38:37

## Operation scenarios

This article will guide you through the enterprise real-name authentication process via the WeChat Public Platform.

## Prerequisites

- You have [registered a Tencent Cloud account](#).
- WeChat official accounts that have already completed real-name authentication on the WeChat Public Platform.

## Operation step

1. log in to the Tencent Cloud console and go to the [Real-name Authentication](#) page.
2. Select **Corporate Certification**, click **Start Corporate Certification**.

### 选择认证类型

实名认证时，企业主体请尽量避免使用个人认证方式，以免企业人员变动或交接引起不必要的纠纷。

个人认证

- 适用个人用户，账号归属于个人
- 支持微信扫码实名、人脸识别实名、QQ 扫码实名
- 可开个人/企业/组织增值税普通发票，不支持企业增值税专用发票
- 1 个身份证可实名最多 3 个腾讯云账号

#### ○ License type:

- **Business License:** A certificate issued by the industrial and commercial administration authority to industrial and commercial enterprises and individual businesses, permitting them to engage in certain business activities.
- **Non-business License:** Various types of business registration certificates, licenses, business licenses, three-in-one certificates, and other types of non-business licenses for enterprise organizations.
- **Business License:** Upload a color photocopy of the enterprise's business license.
- **Enterprise Name:** After uploading the organization license, the system will automatically recognize and fill it in. If inaccurate, please correct it manually.
- **Social Credit Code/Other Institution Code:** A unique, unchanging code identifier issued to legally registered organizations, enterprises, institutions, social groups, and other organizational entities within the People's Republic of China. After uploading the organization license, the system will automatically recognize and fill it in. If inaccurate, please correct it manually (i.e., fill in the Unified Social Credit Code, Registration Number, or Organization Code).
- **Communication Address:** Fill in the location address of the enterprise.
- **Enterprise Contact Person's Name:** Fill in the name of the enterprise contact person.
- **Enterprise Contact Person's ID Number:** Fill in the ID number of the enterprise contact person.

- **Enterprise Contact Person's Mobile Phone Number:** Fill in the mobile phone number of the enterprise contact person.

4. click **Next**.

5. Select the "Authentication Method" **WeChat Official Account Platform Authentication**, click **Next**.

✓ 填写基本信息 > 2 选择认证方式 > 3 认证完成

认证方式

**微信公众平台认证 (即时完成)**

- 需准备好已在微信公众平台完成企业认证的账号 (注意该账号认证企业名称要与腾讯云实名认证企业名称一致方可认证成功)
- 需要使用公众平台绑定的**管理员个人微信号**扫码

**企业法人微信扫码认证 (即时完成)**

- 请使用企业法人微信扫码
- 微信需绑定银行卡 (查看 [绑卡指引](#))
- 该方式需企业法人亲自扫码校验

**企业法人人脸识别认证 (即时完成)**

- 通过腾讯云慧眼人脸识别技术, 秒级确认身份, 认证过程安全有保障
- 该方式需企业法人亲自扫码校验

**腾讯云充值认证 (1个工作日完成)**

- 需具备企业对公银行账户
- 需向腾讯云充值验证金 (小于1元)
- 认证成功后, 验证金将自动打入企业在腾讯云的账户余额中, 可随时提现
- 若打款错误或失败, 验证金自动退回, 请放心

**企业对公打款认证 (1~5个工作日完成)**

- 具备并填写企业对公银行账户
- 腾讯云将向企业进行打款验证 (小于1元)
- 收到打款后, 请在7天内将金额填写至腾讯云, 填写正确即可通过认证

微信公众平台认证 (即时完成)

- 需准备好已在微信公众平台完成企业认证的账号 (注意该账号认证企业名称要与腾讯云实名认证企业名称一致方可认证成功)
- 需要使用公众平台绑定的管理员个人微信号扫码

企业法人微信扫码认证 (即时完成)

- 请使用企业法人微信扫码
- 微信需绑定银行卡 (查看 [绑卡指引](#))
- 该方式需企业法人亲自扫码校验

企业法人人脸识别认证 (即时完成)

- 通过腾讯云慧眼人脸核身技术, 秒级确认身份, 认证过程安全有保障
- 该方式需企业法人亲自扫码校验

腾讯云充值认证 (1个工作日完成)

- 需具备企业对公银行账户
- 需向腾讯云充值验证金 (小于1元)
- 认证成功后, 验证金将自动打入企业在腾讯云的账户余额中, 可随时提现
- 若打款错误或失败, 验证金自动退回, 请放心

企业对公打款认证 (1~5个工作日完成)

- 具备并填写企业对公银行账户
- 腾讯云将向企业进行打款验证 (小于1元)
- 收到打款后, 请在7天内将金额填写至腾讯云, 填写正确即可通过认证

6. Enter the basic information of the corporate legal person, click **Complete the filling**.

Note

©2013–2024 Tencent Cloud. All rights reserved.

Page 27 of 67

Not supported for Hong Kong (China), Macao (China), Taiwan (China), and international legal persons.

The screenshot shows the 'Verify authentication information' step of the Tencent Cloud account verification process. The progress bar at the top indicates four steps: 1. Fill in basic information (checked), 2. Select authentication method (checked), 3. Verify authentication information (active), and 4. Authentication complete. The 'Authentication method' is set to 'Enterprise legal person WeChat QR code authentication'. Under 'Enterprise legal person basic information', there are input fields for 'Enterprise legal person name' and 'Enterprise legal person ID number', both with placeholder text 'Please enter the enterprise legal person name/ID number'. At the bottom, there are two buttons: 'Previous step' and 'Complete filling'.

7. Open the personal WeChat of the corporate legal person, and scan the mini-program code on the page.

This screenshot shows the same verification page as the previous one, but now it displays a large QR code for WeChat authentication. The text above the QR code reads: 'To verify your identity, please use WeChat to scan the code for authorization. The code is valid until 2021-06-10 18:22:15.' Below the QR code, it says 'Complete authorization operation, real-name will be successful immediately'. The 'Previous step' button is still visible at the bottom left.

8. On mobile WeChat, click **Authorize**.
9. Ensure that the submitted real-name information matches the real-name information reserved in current WeChat Pay, check **You have read and agree to the WeChat Pay User Authorization Agreement**, click **Authorize**, and the certification is complete upon successful verification.

## Subsequent Operations

After completing enterprise real-name authentication, you can perform the required operations on Tencent Cloud. Common tasks include:

- [Manage account information](#).
- Purchase Tencent Cloud products, such as [CVM](#), [Lighthouse](#), [COS](#), etc.

- Proceed with [Domains](#) or [ICP](#).

## Problem?

- [What should I do if the corporate legal person WeChat QR Code authorization or legal person Face Recognition fails?](#)
- [What should I do if the identification or mobile number for real-name authentication exceeds the limit and I want to authenticate or bind a new account?](#)

# Authenticate through corporate legal person's Face Recognition

Last updated: 2024-08-16 19:44:00

## Operation scenarios

This article will guide you on how to perform enterprise real-name authentication using the corporate legal person's Face Recognition method.

## Prerequisites

You have [registered a Tencent Cloud account](#).

## Operation step

1. log in to the Tencent Cloud console and go to the [Real-name Authentication](#) page.
2. Select **Corporate Certification**, click **Start Corporate Certification**.

### 选择认证类型

实名认证时，企业主体请尽量避免使用个人认证方式，以免企业人员变动或交接引起不必要的纠纷。

个人认证

- 适用个人用户，账号归属于个人
- 支持微信扫码实名、人脸识别实名、QQ 扫码实名
- 可开个人/企业/组织增值税普通发票，不支持企业增值税专用发票
- 1 个身份证可实名最多 3 个腾讯云账号

[开始个人认证](#)  
[个人如何完成实名认证?](#)

企业认证

- 适用企业、个体工商户、政府、事业单位、学校、组织等，账号归属企业
- 支持微信公众号扫码认证、充值认证、企业对公打款认证
- 可开增值税专用发票
- 一个企业信息主体默认可认证 10 个腾讯云账号

## 6. Confirm Payment account, click confirm and verify.

The screenshot shows the 'Verify authentication information' step of the Tencent Cloud account verification process. At the top, a progress bar indicates four steps: 'Fill in basic information', 'Select authentication method', 'Verify authentication information' (current step), and 'Authentication complete'. The 'Authentication method' is set to 'Tencent Cloud recharge authentication'. Below this, a note states that a recharge of at least 1 yuan is required, and upon success, the funds will be credited to the Tencent Cloud account balance. The 'Payment information' section includes a masked 'Payment account' field with a note to use an account matching the business license. A blue banner at the bottom provides a warning to avoid errors by confirming the amount. At the very bottom are buttons for 'Previous step' and 'Confirm and verify'.

## 7. Check the amount to be transferred, and use the payment account in [Step 6](#) to make an offline remittance of this amount to the designated Tencent Cloud account. After Tencent Cloud receives the payment (usually within one working day), the authentication will be completed.

This screenshot shows the same 'Verify authentication information' step, but with more detailed information. The 'Payment information' section now includes fields for 'Company name' (with a 'Modify company name' link) and 'Amount to be paid'. The 'Receiving party information' section is expanded, showing the transfer method as 'Online bank / Mobile bank / Wire transfer / Draft / Beijing inter-city counter cash deposit', the receiving account name as 'Tencent Cloud Computing (Beijing) Co., Ltd.', the receiving account number (masked), and the receiving bank as 'Min Sheng Bank Beijing Shangdi Branch'. Below this, there is a field for 'Send receiving party information to security mobile phone' with a 'Free send' link. A blue banner at the bottom contains important notes: a 7-day deadline for payment, automatic recharge upon success, a warning about failed payments, and a note about the 1-day processing time for offline transfers. The 'Previous step' button is at the bottom left.

## Subsequent Operations

After completing enterprise real-name authentication, you can perform the required operations on Tencent Cloud. Common tasks include:

4. click **Next**.

5. **Authentication Method Select Corporate Public Remittance Authentication**, click **Next**.

The screenshot displays the 'Select Authentication Method' (选择认证方式) step in the Tencent Cloud account setup process. It features a progress bar at the top with three steps: 'Fill Basic Information' (填写基本信息), 'Select Authentication Method' (选择认证方式), and 'Authentication Complete' (认证完成). The 'Select Authentication Method' step is currently active.

Under the 'Authentication Method' (认证方式) section, several options are listed:

- 微信公众平台认证 (即时完成)**: Requires a WeChat Public Platform account and a manager's personal WeChat QR code.
- 企业法人微信扫码认证 (即时完成)**: Requires a corporate WeChat QR code and a binding bank card.
- 企业法人人脸识别认证 (即时完成)**: Uses Tencent's facial recognition technology for identity verification.
- 腾讯云充值认证 (1个工作日完成)**: Requires a corporate bank account and a deposit to Tencent Cloud.
- 企业对公打款认证 (1~5个工作日完成)**: Requires a corporate bank account and a deposit to the account.

At the bottom, there is a 'Help Document' (帮助文档) section with links to various FAQs, such as 'What to do if facial recognition fails?' and 'What to do if the deposit is not received?'. A 'View More' (查看更多) link is also present.

Navigation buttons at the bottom include 'Return to Modify Authentication Information' (返回修改认证信息) and 'Next Step' (下一步).

6. **Enter Corporate Bank Account Information**, including corporate bank card number, bank of account opening, bank location, name of branch where account is opened, name of corporate legal person, ID number of corporate legal person, color photo of legal person holding ID card with national emblem side, color photo of legal person holding ID card with portrait side, etc. click **Complete the Form**.

完成填写

7. Tencent Cloud will remit an amount ranging from 0.01 – 0.99 yuan to the bank account filled in [Step 6](#) within 1 – 3 business days.

## 8. After filling in the handler information, click **Next**.

The screenshot shows the 'Handler Information' step of the Tencent Cloud account verification process. A modal window titled '经办人身份核验' (Handler Identity Verification) is displayed over the main form. The modal has two steps: '1. 填写经办人信息' (Fill in handler information) and '2. 进行人脸识别' (Perform face recognition). The first step is active, showing a warning message: '① 为了企业信息安全, 请提交经办人信息并进行验证' (① For enterprise information security, please submit handler information and perform verification). Below the warning, there are two input fields: '经办人姓名' (Handler Name) with a placeholder '请填写身份证上的真实姓名' (Please fill in the real name on the ID card), and '经办人身份证' (Handler ID Card) with a placeholder '请填写18位二代身份证号码' (Please fill in the 18-digit second-generation ID card number). A blue '下一步' (Next Step) button is at the bottom right of the modal. The background form shows the '填写基本信息' (Fill in basic information) step, with fields for '企业名称' (Enterprise Name), '企业银行卡账号' (Enterprise Bank Card Number), '开户银行' (Opening Bank), '银行所在地' (Bank Location), and '开户支行名' (Opening Branch Name).

## 9. Complete handler Face Recognition .

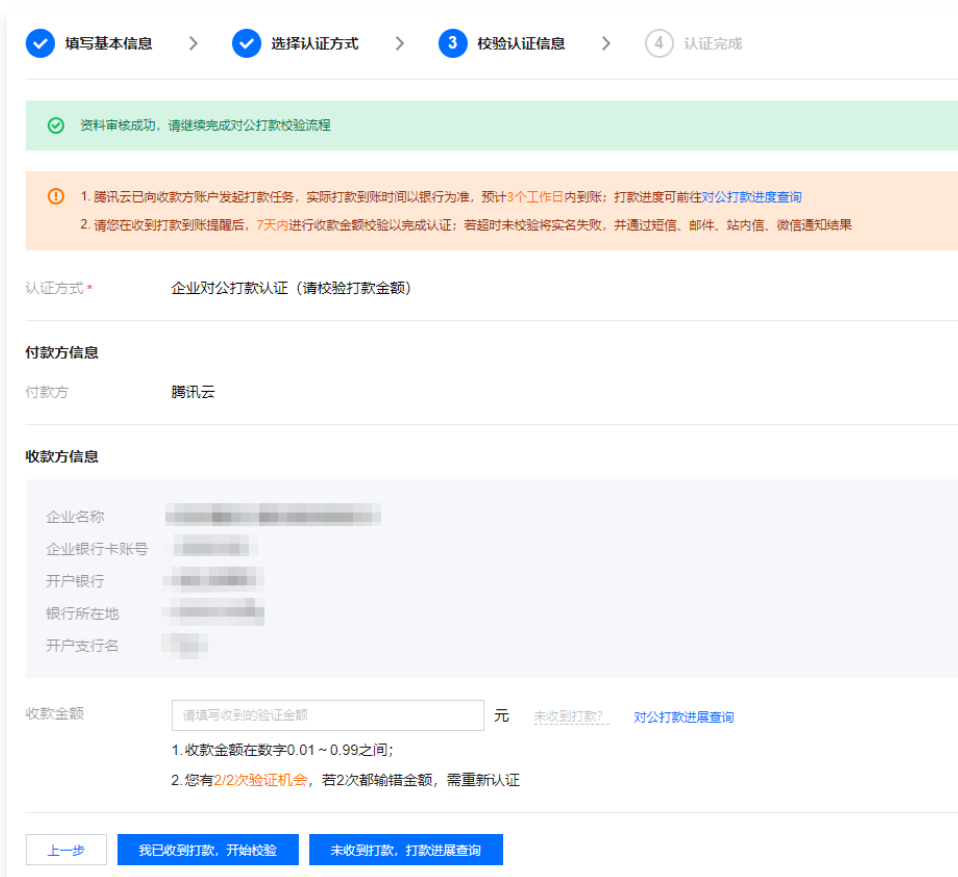

The screenshot shows the 'Face Recognition' step of the Tencent Cloud account verification process. The modal window titled '经办人身份核验' (Handler Identity Verification) is now on step '2. 进行人脸识别' (Perform face recognition). The first step '1. 填写经办人信息' is marked as completed with a blue checkmark. The modal displays a large QR code for face recognition, with the text '为了验证您的身份, 请使用微信扫码进行人脸识别' (To verify your identity, please use WeChat to scan the QR code for face recognition). Below the QR code, it says '系统将自动审核, 并实时反馈审核结果' (The system will automatically review and provide real-time feedback on the review results). At the bottom, there is a button labeled '返回修改经办人信息' (Return to modify handler information).

## 10. Wait for the review materials.

The screenshot shows the '校验认证信息' (Verify Authentication Information) step in the verification process. The progress bar at the top indicates the current step is 3, with steps 1 (填写基本信息), 2 (选择认证方式), and 4 (认证完成) also visible. The main content area features a large orange clock icon and the text '审核中' (Under Review). Below this, a message states: '为了确保企业实名认证安全，您于2022-05-30 10:59:33提交的资料正在人工审核中；将在2个工作日内完成审核，请耐心等待。' (To ensure the security of enterprise real-name authentication, the materials you submitted on 2022-05-30 10:59:33 are currently under manual review; the review will be completed within 2 working days, please wait patiently). Two buttons are present: '刷新审核结果' (Refresh Review Results) and '撤销审核更换其他认证方式' (Cancel Review and Change Other Authentication Method). At the bottom, the '认证方式' (Authentication Method) is listed as '企业对公打款认证 (请校验打款金额)' (Enterprise-to-business payment authentication (please verify the payment amount)).

## 11. After approval, once your bank account has received the payment from Tencent Cloud, go to the [Enterprise Real Name Authentication](#) page, enter the amount of the remittance, click **I have received the payment, start verification**.

The screenshot shows the '校验认证信息' (Verify Authentication Information) step after approval. The progress bar at the top indicates the current step is 3, with steps 1 (填写基本信息), 2 (选择认证方式), and 4 (认证完成) also visible. A green success message at the top states: '资料审核成功，请继续完成对公打款校验流程' (Materials review successful, please continue to complete the enterprise-to-business payment verification process). Below this, an orange warning box contains two points: '1. 腾讯云已向收款方账户发起打款任务，实际打款到账时间以银行为准，预计3个工作日内到账；打款进度可前往对公打款进度查询' (Tencent Cloud has initiated a payment task to the收款方 account, the actual payment arrival time is determined by the bank, expected within 3 working days; payment progress can be checked on the enterprise-to-business payment progress query page) and '2. 请您在收到打款到账提醒后，7天内进行收款金额校验以完成认证；若超时未校验将实名认证失败，并通过短信、邮件、站内信、微信通知结果' (Please verify the payment amount within 7 days after receiving the payment arrival reminder to complete authentication; if the verification is not completed within the time limit, the real-name authentication will fail, and the result will be notified via SMS, email,站内信, and WeChat). The '认证方式' (Authentication Method) is listed as '企业对公打款认证 (请校验打款金额)' (Enterprise-to-business payment authentication (please verify the payment amount)). The '付款方信息' (Payment Information) section shows '腾讯云' (Tencent Cloud) as the payer. The '收款方信息' (Receiving Party Information) section includes fields for '企业名称' (Enterprise Name), '企业银行卡账号' (Enterprise Bank Card Number), '开户银行' (Opening Bank), '银行所在地' (Bank Location), and '开户支行名' (Opening Branch Name). The '收款金额' (Payment Amount) section has a text input field for '请填写收到的验证金额' (Please enter the payment amount received for verification), followed by '元' (Yuan) and a '未收到打款?' (Did not receive payment?) link. Below this, two instructions are provided: '1. 收款金额在数字0.01~0.99之间;' (The payment amount is between 0.01 and 0.99) and '2. 您有2/2次验证机会，若2次都输错金额，需重新认证' (You have 2/2 verification opportunities, if you enter the amount incorrectly twice, you need to re-authenticate). At the bottom, there are three buttons: '上一步' (Previous Step), '我已收到打款，开始校验' (I have received payment, start verification), and '未收到打款，打款进展查询' (Did not receive payment, payment progress query).

If the amount you enter matches the remittance amount issued by the system at that time, the authentication is completed. If the amounts you enter do not match the system's issued remittance amount twice in a row, the authentication fails.

**Note**

This bank account is only used for real-name authentication remittances and refunds, and not for offline remittances.

## Subsequent Operations

After completing enterprise real-name authentication, you can perform the required operations on Tencent Cloud. Common tasks include:

- [Manage account information](#) .
- Purchase Tencent Cloud products, such as [CVM](#) , [Lighthouse](#) , [COS](#) , etc.
- Proceed with [Domains](#) or [ICP](#) .

## Problem?

- [What should I do if I haven't received the remittance for corporate authentication within 3 business days?](#)
- [What should I do if the identification or mobile number for real-name authentication exceeds the limit and I want to authenticate or bind a new account?](#)
- [How do Hong Kong \(China\), Macao \(China\), Taiwan \(China\), and international users perform real-name authentication?](#)
- [How long is the review process for real-name authentication submission?](#)

# Changing Personal Authentication Information

Last updated: 2024-08-16 19:49:14

## Operation scenarios

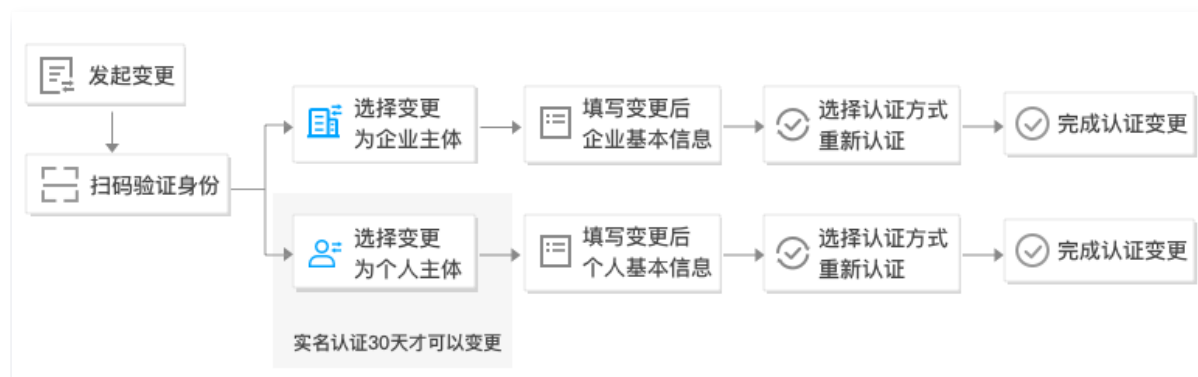

This document guides you on how to change the real-name authentication information for your Tencent Cloud account that has already completed personal real-name authentication. Real-name authentication information determines account ownership. After completing real-name authentication, it is recommended not to change the authentication information arbitrarily.

## Notes

- There is no time limit for changing personal authentication to enterprise authentication. Other real-name authentication change scenarios require a 30-day gap after the last real-name authentication before making changes.
- Once personal authentication is changed to enterprise authentication, it cannot be reverted to personal authentication.
- From the start of the real-name authentication change to the approval/rejection period, you can revoke the change request at any time, and the real-name authentication information will revert to the original authentication subject.
- From the start of the real-name authentication change to the approval/rejection period, resources and any incurred debts belong to the original authentication subject.

## Flowchart

After verifying your identity with your personal account, it can be changed to another individual or to a business. The detailed steps are as follows:

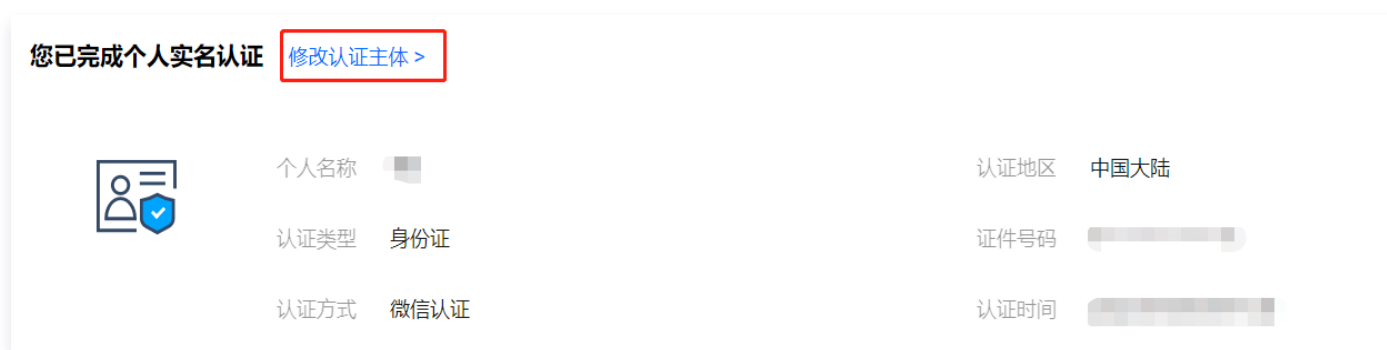

## Operation step

## Change to enterprise real-name authentication

1. log in to Tencent Cloud Console, and go to the [Account Information](#) page.
2. In the **Basic Information** section, find the authentication status, click **View or Modify Authentication**.

3. On the authentication information page, click **Change Authentication Subject**.

4. On the page for modifying personal real-name authentication, check **I have read and agree to the <Real-Name Authentication Subject Change Agreement>**, click **Start Modification**.
5. Open WeChat and scan the mini program code for **Face Recognition**.
6. On the **Choose Change Type** page, select **Change to a Business Entity**, click **Next**.

7. On the **Fill in Basic Information** page, upload a color photo of the certificate, fill in the business name, organization code, and contact address, check **I have read and agree to**

the <Accept Real-Name Authentication Subject Change Agreement>, and click **Next**.

The screenshot shows the '填写基本信息' (Fill Basic Information) step in the authentication process. The progress bar at the top indicates the current step is 3, with previous steps '验证用户身份' and '选择变更类型' completed, and subsequent steps '选择认证方式' and '认证完成' pending. The form includes fields for '认证地区' (set to '中国大陆'), '证照类型' (selected as '营业执照'), '营业执照' (with a file upload area), '企业名称' (with a note to match the license), '社会信用代码/其他组织机构代码', '通讯地址' (with a dropdown and a detailed address field), and '企业联系人信息' (including name, ID, and phone number). A checkbox at the bottom indicates agreement with the terms. Navigation buttons '上一步' and '下一步' are at the bottom.

8. On the Choose Authentication Method page, select an authentication method according to the actual situation, click **Next**.

9. Complete the authentication operation according to the page prompts.

For detailed operations, refer to the [Enterprise Real-Name Authentication Guide](#) document.

## Change to another personal real-name authentication

1. log in to Tencent Cloud Console, and go to the [Account Information](#) page.

2. In the "Basic Information" section, find the authentication status, click **View or Modify Authentication**.

The screenshot shows the '基本信息' (Basic Information) section of the Tencent Cloud console. It displays account details like '账号昵称', '账号ID', and 'APPID'. On the right, the '认证状态' (Authentication Status) is shown as '已认证' (Authenticated), with a red box highlighting the '查看或修改认证' (View or Modify Authentication) link. Other fields like '所属行业', '联系手机', and '联系邮箱' are also visible.

3. On the authentication information page, click **Change Authentication Subject**.

4. On the page for modifying personal real-name authentication, check **I have read and agree to the <Real-Name Authentication Subject Change Agreement>**, click **Start Modification**.

5. Open WeChat and scan the mini program code for Face Recognition .

6. On the Choose Change Type page, select **Change to an Individual Entity**, click **Next** .

7. On the Fill in Basic Information page, select the ID type, fill in the new personal basic information, check **I have read and agree to the <Accept Real-Name Authentication Subject Change Agreement>**, click **Next** .

**Note:**

The changed personal identity information must be at least 18 years old and support Mainland ID card, Hong Kong and Macao residents' travel permit to the mainland, Taiwan (China) residents' travel permit to the mainland.

下一步

8. In the pop-up prompt box, verify that the filled information is correct, click **Confirm**.

9. Open WeChat and scan the mini program code on the authentication information verification page for Face Recognition .

After completing the Face Recognition , the real-name authentication will be immediately successful.

# Change Corporate Authentication Information

## Change enterprise entity

Last updated: 2024-08-16 19:50:06

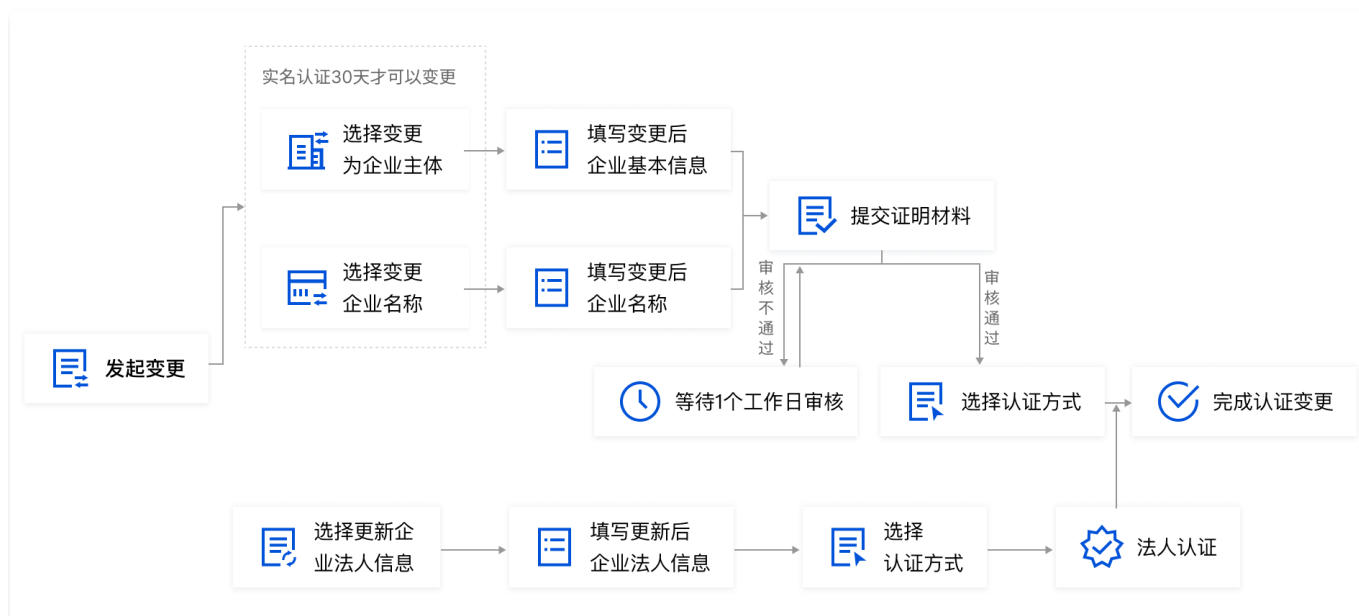

### Operation scenarios

This article guides you on how to change the enterprise entity for a Tencent Cloud account that has completed enterprise real-name authentication (changing from Company A to Company B). The real-name authentication information determines the account ownership. Once the account has completed real-name authentication, it is recommended not to modify the authentication information casually.

### Notes

- Enterprise real-name authentication can only be changed after 30 days of completion.
- Enterprise real-name authentication cannot be changed to individual real-name authentication.
- From the start of the real-name authentication change to the approval/rejection period, you can revoke the change request at any time, and the real-name authentication information will revert to the original authentication subject.
- The enterprise real-name change process is valid for 7 days. If exceeded, you need to resubmit.
- From the start of the real-name authentication change to the approval/rejection period, resources and any incurred debts belong to the original authentication subject.
- After changing the real-name authentication, you will not be able to issue a special VAT invoice under the original enterprise name.

### Flowchart

## Operation step

1. log in to the Tencent Cloud console and go to the [Real-name Authentication](#) page.
2. In the "You have completed corporate real-name authentication" section, select **Change Authentication Subject**.

3. On the Change Enterprise Real-name Authentication page, click **Start Modification**.

4. On the change type selection page, select **Change corporate entity (Company A becomes Company B)**, fill out the legal representative's information before the change, and the actual identity information after the change, click **Next**.

1 选择变更类型 > 2 提交证明材料 > 3 实名信息审核 > 4 填写基本信息 > 5 选择认证方式 > 6 认证完成

变更后认证类型

变更认证类型 •

1 填写基本信息

2 选择认证方式

3 认证完成

认证方式

**微信公众平台认证 (即时完成)**

- 需准备好已在微信公众平台完成企业认证的账号 (注意该账号认证企业名称要与腾讯云实名认证企业名称一致方可认证成功)
- 需要使用公众平台绑定的**管理员个人微信号**扫码

**企业法人微信扫码认证 (即时完成)**

- 请使用企业法人微信扫码
- 微信需绑定银行卡 (查看 [绑卡指引](#))
- 该方式需企业法人亲自扫码校验

**企业法人人脸识别认证 (即时完成)**

- 通过腾讯云慧眼人脸核身技术, 秒级确认身份, 认证过程安全有保障
- 该方式需企业法人亲自扫码校验

**腾讯云充值认证 (1个工作日完成)**

- 需具备企业对公银行账户
- 需向腾讯云充值验证金 (小于1元)
- 认证成功后, 验证金将自动打入企业在腾讯云的账户余额中, 可随时提现
- 若打款错误或失败, 验证金自动退回, 请放心

**企业对公打款认证 (1~5个工作日完成)**

- 具备并填写企业对公银行账户
- 腾讯云将向企业进行打款验证 (小于1元)
- 收到打款后, 请在7天内将金额填写至腾讯云, 填写正确即可通过认证

11. Certification completed, real-name change successful.

## FAQs

- What should I do if the original enterprise real-name authentication subject information changes when modifying enterprise real-name authentication?
- What should I do if the original enterprise real-name authentication subject has been deregistered and has no business license when modifying enterprise real-name authentication?

For more common questions about changing authentication, please refer to the [Changing Authentication](#) documentation.

# Change Enterprise Name

Last updated: 2024-08-16 19:50:25

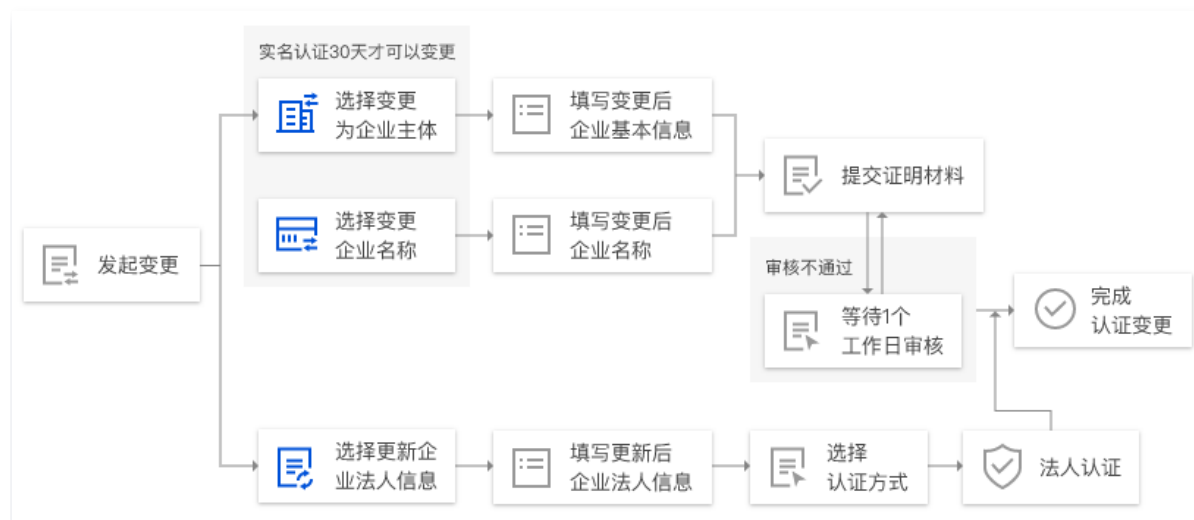

## Operation scenarios

This article guides you on how to change the enterprise name for a Tencent Cloud account that has completed enterprise real-name authentication (enterprise institution code remains unchanged).

## Notes

- From the start of the real-name authentication change to the approval/rejection period, you can revoke the change request at any time, and the real-name authentication information will revert to the original authentication subject.
- From the start of the real-name authentication change to the approval/rejection period, resources and any incurred debts belong to the original authentication subject.
- After changing the real-name authentication, you will not be able to issue a special VAT invoice under the original enterprise name.

## Flowchart

# Updating Legal Representative Information

Last updated: 2024-08-16 19:50:51

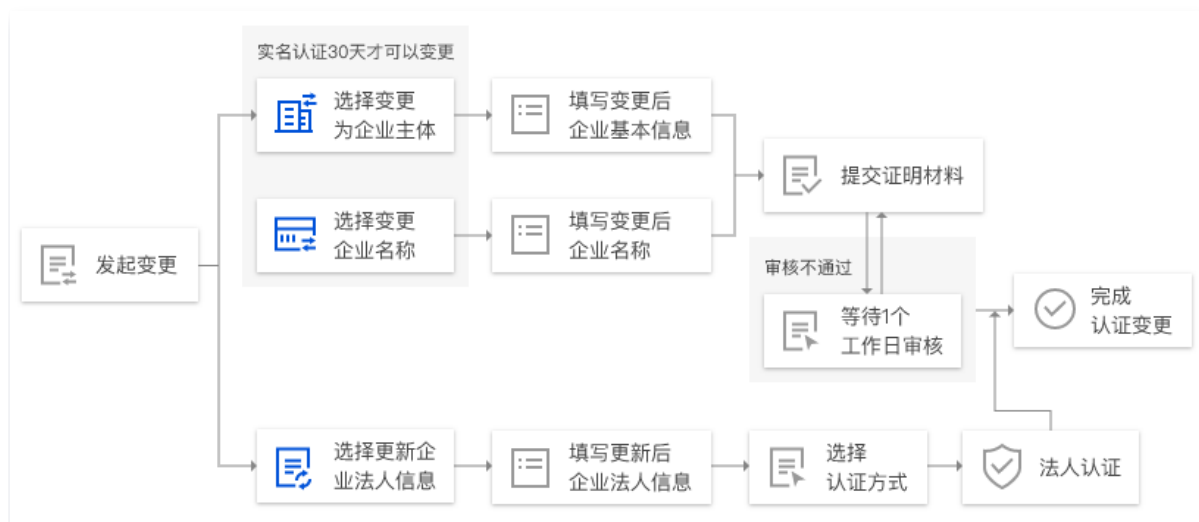

## Operation scenarios

This document guides you on how to update the real-name authentication information for the legal representative of a Tencent Cloud account that has already been enterprise authenticated. This operation is applicable only when changing the legal representative, while the enterprise entity remains unchanged, and the account's resources and ownership are unaffected.

## Notes

- Supports updating legal representative information and adding new legal representative information for accounts certified with a unified social credit code that is authenticated as an industrial and commercial enterprise (i.e., registered with the industrial and commercial department, with an 18-digit unified social credit code starting with 91 or 92).
- Only supports submitting information from the Resident Identity Card of the People's Republic of China for modification.
- Legal representative information can be used for account security settings and other verifications. If not provided, it is recommended to complete it.
- If the business entity type does not have the "Update Corporate Legal Person Information" option, please update and supplement the corporate social credit code information through "Change Corporate Entity". After the update and supplement are completed, the "Update Legal Person Information" entry will appear, through which the legal person information can be updated.

## Flowchart

## Operation step

1. log in to the Tencent Cloud console and go to the [Real-name Authentication](#) page.
2. In the "You have completed corporate authentication" column, click **Modify Authentication Entity**.

3. On the Modify Enterprise Real-name Authentication page, click **Start Modification**.

### 修改企业实名认证

请根据以下步骤修改实名认证，审核通过后即可变更实名信息。若有任何疑问，请查阅 [《修改实名认证指引》](#)
